

The image shows a web-based SQL editor interface. At the top, there's a navigation bar with the following elements: a green leaf icon, the text 'purachetparamart-pixel's Org' with a 'FREE' badge, a dropdown arrow, the text 'purachetparamart-pixel's Project', another dropdown arrow, the text 'main' with a 'PRODUCTION' badge, another dropdown arrow, a 'Connect' button with a database icon, a 'Feedback' link, a search bar with 'Search...' and 'Ctrl K' shortcuts, and several circular icons for help, lightbulb, and other functions. The main interface is divided into three parts. On the left is a sidebar with a search bar 'Search queries...' and a list of queries categorized into 'SHARED', 'FAVORITES', 'PRIVATE (7)', and 'REFERENCE'. The 'PRIVATE (7)' section is expanded, showing a list of 'Untitled query' items, each with a small 'SQL' icon. The main area is the SQL editor, which has a tab bar at the top with 'Untitled query' tabs and a '+' button. The editor contains a SQL query:

```
1 CREATE TABLE products (  
2   product_id SERIAL PRIMARY KEY,  
3   product_name VARCHAR(100) NOT NULL,  
4   price NUMERIC(10,2) NOT NULL,  
5   stock INT DEFAULT 0  
6 );
```

 Below the editor is a toolbar with a 'Results' tab (selected), a 'Chart' tab, a green checkmark, a vertical ellipsis menu, a 'Source' button, a 'Primary Database' dropdown, a 'Role postgres' dropdown, and a green 'Run' button with 'Ctrl R' shortcut. At the bottom of the editor area, there's a text prompt 'Click Run to execute your query' and a 'View running queries' button at the very bottom.

The screenshot shows a web-based SQL editor interface. At the top, there's a navigation bar with the organization name 'purachetparamart-pixel's Org' (marked as 'FREE'), the project name 'purachetparamart-pixel's Project' (marked as 'main' and 'PRODUCTION'), and a 'Connect' button. To the right of the navigation bar are links for 'Feedback', a search bar with 'Search...' and 'Ctrl K', and several utility icons. The main interface is divided into three sections. On the left is a sidebar with a 'SQL Editor' header, a search bar for queries, and a list of query tabs under 'PRIVATE (7)'. The central area is the SQL editor, showing a 'CREATE TABLE customers' query with syntax-highlighted fields like 'customer_id', 'full_name', 'email', and 'city'. Below the editor is a 'Results' tab and a 'Run' button. The bottom section contains a 'View running queries' button.
